FBI: No “hard evidence” that Osama Bin Laden was behind 9/11

The government has yet to properly explain why our generation's Pearl Harbor, 9/11, is never mentioned on the FBI's Most Wanted poster of suspected mastermind Usama (Osama) Bin Laden.

Important questions from the victim’s families were virtually ignored

Most of the questions by the Family Steering Committee submitted for President Bush, Vice President Cheney, Condoleezza Rice, George Tenet, Robert Mueller, the FBI, CIA, FAA, NORAD and other critical government agencies were ignored or omitted from the final report.

The 9/11 Commission Report: “A 571-Page Lie”

Dr. David Ray Griffin, professor of theology and philosophy and author of several books on 9/11, has described the 9/11 Commission Report as “a 571-page lie”:

In making this statement, one of my points has been that the entire Report is constructed in support of one big lie: that the official story about 9/11 is true.

He has compiled a list of 115 deliberate omissions and distortions, posted at:
